---

**Designer** Sibylle Hagmann

**Styles and Weights** 6

**Format** Cross Platform OpenType / Web / App

**Publication Date** 2022 / Version 0.1

**About** Marlidge Display is a flamboyant and vibrant typeface evocative of a transitional roman or Latin design with elegant roundly bracketed serifs and a considerable thick to thin contrast. The letter forms are condensed and embrace both, curves and pointed elements that create an interlocking rhythm with a lively texture. Marlidge Display aims to exercise restraint by going all out on curves, yet attempting to control excessiveness and amplification. This type shines in large letter sizes with a suitable style range, figures for titling and text integrated in larger size type, unique arrow designs and a small set of charming ornaments for frames and repeat-patters. Most apt in display, integrated in applications such as logotypes, headlines and many more, to make any design stand out and to prominently convey messages for print and screen alike.
